02/05/2016		BMW of North America, LLC	Manufacturer Safety recall issued NHTSA #16V-071 Recall # 16V-071:221 DRIVER'S FRONT AIR BAG Status: Remedy Not Yet Available Need more information about this recall? Find an authorized BMW dealer , email CustomerRelations@bmwusa.com , or call 1-800-525-7417 - Learn more about this recall

Description: During air bag deployment in an accident, the driver's front air bag module may produce excessive internal pressure that could cause the inflator to rupture.

Inflator rupture could result in metal fragments striking the driver or other passengers, potentially resulting in serious injury or death.

Remedy: Due to the large volume of new inflators needed to repair vehicles, final owner notification letters will initially be issued by First Class Mail to owners of the highest risk registered vehicles, i.e., oldest models in highest absolute humidity areas (e.g., USA Gulf states). As parts supply increases, all owners of affected vehicles will be notified by First Class mail. When you receive your final letter, you should make an appointment with an authorized BMW center immediately so they can replace the driver's front air bag module. To ensure BMW of North America, LLC has your most recent contact information, please

register your vehicle at <http://www.bmwusa.com/myBMW>

This vehicle uses an indicator light to alert users when it's time to change the oil. Oil changes have been reported to CARFAX at least every 15,000 miles, which is in line with manufacturer guidelines. Track your service history for free at myCARFAX.com.

Have Questions? Consumers, please visit our Help Center at www.carfax.com. Dealers or Subscribers, please visit our Help Center at www.carfaxonline.com.

CARFAX Glossary

[View Full Glossary](#)

CARFAX Well Maintained - Regular Oil Changes

CARFAX identifies a "Well Maintained - Regular Oil Change" vehicle as having a regular oil change history when all its recommended oil changes, based on the vehicle's maintenance schedule, have been reported to CARFAX. CARFAX uses the manufacturer's schedule and assumes normal driving conditions. When an oil change schedule is not available, CARFAX may analyze reported service events to determine what is typical for the same make and model vehicle. Dealers and service shops may publish different recommended service schedules.

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform owners of car defects that have come to the manufacturer's attention. Recalls also suggest improvements that can be made to improve the safety of a particular vehicle. Most manufacturer recalls can be repaired at no cost to you.

New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.

Vehicle Facts: For 2011, the BMW 3-Series coupe and convertible have been slightly restyled and gain an additional model in the sport-oriented 335is * For 2011, all 335i models receive a new, more fuel-efficient turbocharged engine and the stereo is a Harman Kardon * BMW 3-Series is in its sixth year since the last full redesign * For 2011, the all-new engine for the 335i models produces the same output, but changes to a single twin-scroll turbocharger in place of the old engine's dual single-scroll turbochargers and combines with direct injection to improve fuel economy * The 2011 BMW 3 Series is available in sedan, wagon, coupe and hardtop-convertible body styles * The base model for all styles is the rear-wheel-drive 328i, while the coupe, sedan and wagon also come in all-wheel-drive 328i xDrive * All models except the wagon are available as the rear-drive 335i, and the sedan and coupe come in a 335i xDrive model * The coupe and convertible are available as the sport-oriented 335is * A diesel-powered 335d sedan is available * BMW 3 Series comes standard with rear-wheel drive, but all models except the convertible, 335d and 335is can be equipped with xDrive all-wheel drive * All 3-series models have BMW's patented double-pivot strut-type front suspension with aluminum components on rear-wheel drive models for reduced unsprung weight * Active Head Restraints are standard, employing fast-acting pyrotechnic activation to pivot the head restraints forward position in close proximity to the occupant's head in the event of a rear-end impact collision * 335i models come standard with a sport-calibrated suspension system * 335i models are powered by a 3.0-liter in-line 6-cylinder engine utilizing twin-turbo technology and piezo direct fuel injection to produce 300 HP at 5800 RPM and 300 lbs.-ft. of torque between 1400-5000 RPM, coupled to either a 6-speed manual transmission or a 6-speed STEPTRONIC automatic transmission * * REASONS TO BUY: Two different-sized turbochargers work together seamlessly via an electronic engine control unit to allow for smooth, powerful acceleration without the lag formerly associated with turbocharging * An Automatic Climate Control system allows occupants to select a specific cabin temperature and choice of fan speeds, as well as automatic or manual airflow and recirculation * An Automatic Recirculation airflow feature activates whenever air pollutants are detected * A Two-way power glass moonroof with one-touch operation and sliding interior sunshade slides forward or tilts up to your liking * The three-spoke leather-wrapped multi-function steering wheel lets you keep both hands on the wheel while adjusting various comfort functions, such as changing the radio, CD selections and volume * An Auxiliary Input Port lets you connect an external audio source, such as an MP3 player *
