GENERATOR ECU AND
POWER MANAGEMENT ECU
Status: Remedy Available

Locate an authorized [Toyota dealer](#) near you to schedule an appointment

- [Learn more about this recall](#)

Description: Toyota is recalling certain model year 2010 through 2014 prius vehicles. In the affected vehicles, the intelligent power module (ipm) inside the inverter module (a component of the hybrid system) contains transistors that may become damaged from high operating temperatures. If this occurs, various warning lamps will be illuminated on the instrument panel and the vehicle will have reduced power allowing it to only drive a short distance.

The vehicle may enter a fail-safe/limp-home mode that limits the drivability of the vehicle. The hybrid system could also shut down completely resulting in a vehicle stall, increasing the risk of a crash.

Remedy: Toyota will notify owners and dealers will update the software for both the motor/generator control electronic control unit (ecu) and the hybrid control ecu, free of charge. If an owner experiences a failure of the inverter before the vehicle receives updated software, the dealer will replace the inverter assembly with a new one at no charge. The recall began on march 21, 2014. Owners may contact Toyota at 1-800-331-4331.

02/28/2014		Virginia Motor Vehicle Dept. Purcellville, VA	Registration issued or renewed Loan or lien reported
01/19/2015	82,558	Virginia Inspection Station	Passed safety inspection

04/15/2016	116,194	Virginia Inspection Station	Passed safety inspection
06/28/2016		Toyota Motor Sales, USA, Inc.	Manufacturer Safety recall issued NHTSA #16V487 Recall #G0U SAFETY RECALL G0U - REMEDY NOTICE CERTAIN 2010 - 2012 MODEL YEAR PRIUS CERTAIN 2010 AND 2012 MODEL YEAR PRIUS PLUG-IN CURTAIN SHIELD AIR BAG Status: Remedy Available Locate an authorized Toyota dealer near you to schedule an appointment - Learn more about this recall

Description: The involved vehicles are equipped with curtain shield air bags (CSA) in the driver and passenger side roof rails that have air bag inflators composed of two chambers welded together. Some inflators could have a small crack in the weld area joining the chambers, which could grow over time, and lead to the separation of the inflator chambers. This has been observed when the vehicle is parked and unoccupied for a period of time.

If an inflator separates, the CSA could partially inflate, and, in limited circumstances, one or both sections of the inflator could enter the interior of the vehicle. If an occupant is present in the vehicle, there is an increased risk of injury.

Remedy: Toyota dealers will install retention brackets on the curtain shield air bag inflators at NO CHARGE

10/04/2018		Toyota Motor Sales, USA, Inc.	Manufacturer Safety recall issued NHTSA #18V684 Recall #J1V SAFETY RECALL J1V - INTERIM NOTICE, CERTAIN 2010-2014 MODEL YEAR PRIUS, CERTAIN 2012-2014 MODEL YEAR PRIUS V, HYBRID SYSTEM SOFTWARE UPDATE Status: Remedy Not Available Locate an authorized Toyota dealer near you to schedule an appointment - Learn more about this recall

Description: The involved vehicles were designed to enter a failsafe driving mode in

response to certain hybrid system faults. Toyota has found that in rare situations, the vehicle may not enter a failsafe driving mode as intended. This recall remedy, when available, will address a new condition in the vehicles involved in previous Safety Recalls E0E & F0R. The remedy conducted for E0E & F0R did not anticipate the new condition identified in this recall.

If this occurs, the vehicle could lose power and stall. While power steering and braking would remain operational, a vehicle stall while driving at higher speeds could increase the risk of a crash.

Remedy: Toyota is currently preparing the remedy for this condition. When the remedy becomes available, dealers will perform a software update for the hybrid system **FREE OF CHARGE**. For customer satisfaction, if the vehicle has experienced an inverter failure related to this condition, the inverter assembly will be repaired or replaced prior to the software updates **FREE OF CHARGE**.

Glossary

[View Full Glossary](#)

Damage Indicator

Damage can be a result of many different types of events. Examples include contact with objects (other cars, trees, traffic signs, road debris, etc), vandalism, or weather-related events. Not every damage event is reported to CARFAX. As details about the damage event become available, those additional details are added to the CARFAX Vehicle History Report. CARFAX recommends that you have this vehicle inspected by a qualified mechanic.

- This CARFAX Vehicle History Report is based only on information supplied to CARFAX and available as of 10/25/18 at 5:23:47 PM (CDT). Other information about this vehicle, including problems, may not have been reported to CARFAX. Use this report as one important tool, along with a vehicle inspection and test drive, to make a better decision about your next used car.

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform owners of car defects that have come to the manufacturer's attention. Recalls also suggest improvements that can be made to improve the safety of a particular vehicle. Most manufacturer recalls can be repaired at no cost to you.

New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Rental

Vehicle was registered by a rental agency.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.

Toyota Recall / Service Campaign

Toyota Motor Sales, USA, Inc. provides CARFAX with recall and service campaign information for vehicles originally marketed or sold in the United States of America, its territories, and Mexico. Only open safety or emissions recalls and service campaigns where the remedy has not been completed, will be listed. While Toyota provides data updates to CARFAX on a regular basis, this report may not include very recent activity. For the most current information on recall and campaign activity for any Toyota vehicle, you must go to <http://toyota.com/recall>.
