Vehicle Facts: First unveiled at the 2005 Chicago Auto Show, the Toyota FJ Cruiser joins the lineup as a 3-door sport utility vehicle derived from off-road performance provided by the legendary FJ 40 and the original 4Runner \* Toyota FJ Cruiser shares its platform with the redesigned Toyota 4Runner \* Utility features include a two-part rear hatch with flip-up glass, black overfenders with mud guards, and easy-entry for rear passengers in the form of a rear access door \* The 5-passenger FJ Cruiser comes equipped with the Star Safety System which includes Vehicle Stability Control, Traction Control, Electronic Brake Force Distribution and Brake Assist as standard equipment \* Toyota FJ Cruiser comes in a 5-door sport utility vehicle body style as a Base model with Convenience, Off-Road, TRD and Trail Teams packages available \* Toyota FJ Cruiser is powered by a 4.0-liter DOHC 24-valve VVT-I V6 engine that specifies regular-grade fuel and is rated at 259 HP at 5600 RPM with a torque rating of 270 lbs.-ft. at 4400 RPM \* Two-wheel drive models come with a 5-speed automatic transmission \* Four-wheel drive models offer a choice of 5-speed automatic transmission with part-time 4-wheel drive, or 6-speed manual transmission with full-time 4-wheel drive \* \* REASONS TO BUY: FJ Cruiser uses a modified Land Cruiser Prado frame that's been proven on the roughest terrain in over 150 countries \* The frame employs 8 frame cross-members with beefed up center side rails and rear inner channel reinforcements for greater durability \* The frame includes pre-drilled weld nuts for the addition of rock rails \* Electrocoat Deposition protective coating is used to seal the frame and help prevent corrosion \* The FJ Cruiser's two-speed transfer case provides a 2.566 low range; with the manual transmission, the transfer case uses a TORSEN limited-slip center differential with a locking feature and distributes the engine's power 40:60 under most driving conditions \* Active Traction Control uses sensors to brake spinning wheels, then the open differentials dump power to the opposite wheels for grip \* The torque is split 50/50 when shifting into 4-Lo and engaging the traction control system \* The electronic traction control system can be turned on or off at the touch of a button \* Active Traction Control keeps the differentials open, which avoids binding and can help reduce pressure on the axle shafts \* Locking rear differentials force even power distribution to the wheels \* To keep the rear locking differential actuator waterproof, it's sealed to the rear differential case with a gasket \* In addition to a protective skid plate, the gas tank on the FJ Cruiser is made of its own multi-layer resin that resists punctures and won't rust \* The gas tank's shape helps it dodge rocks by keeping inside the breakover angle \* Skid plates supply protection to the radiator, power steering rack, engine and transfer case \*

**CARFAX Price Adjustment™**

Accidents, service records, number of owners and many other history factors can affect a vehicle's value. The CARFAX Price Adjustment is a tool that analyzes millions of used car transactions to measure how the combination of all the information reported to CARFAX affects the value of a particular vehicle. The vehicle's retail book value plus the CARFAX Price Adjustment will give you a more accurate measure of the vehicle's value. Use this tool, along with a vehicle inspection and test drive, to make a better decision

about your next used car.

**First Owner**

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

**New Owner Reported**

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

**Ownership History**

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

**Title Issued**

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.

**Toyota Recall**

Toyota Motor Sales, USA, Inc. provides CARFAX with recall information within the last 10 model years for vehicles originally marketed or sold in the United States of America and its territories. Only open Safety or Emissions recalls, where the remedy has not been completed, will be listed. While Toyota provides data updates to CARFAX on a regular basis, this report may not include very recent activity. For the most current information on recall activity for any Toyota vehicle, go to <http://toyota.com/recall>.
